SAFETY, COMFORT & TECHNOLOGY

FOR 50 YEARS, RENAULT HAS BEEN A PIONEER IN CAR SAFETY.

That unwavering concern for the safety of all passengers has resulted in eight Renault vehicles being awarded the highly coveted five-star crash

test rating from the Euro NCAP. Renault now ranks as a leader in driver and passenger protection. Renault know-how is reflected in all of the company's vehicles, equipment and accessories. At the core of Renault's design process are four major considerations: prevention, correction, protection and awareness.

* Since 1997, the independently run Euro NCAP has been the leading authority on European auto safety. Five stars is the organization's highest rating.

ON-BOARD NAVIGATION SYSTEM (GPS)

Concentrate on your driving, not on the itinerary! Renault vehicles use only the latest generation satellite navigation systems. Route and traffic information are displayed on a large, easy-to-read screen integrated perfectly into the dashboard.

CRUISE CONTROL

Whether climbing in the Alps or cruising the Autobahn, you can relax your legs and let our intelligent cruise control system worry about maintaining constant speed. The slightest pressure on the brake or accelerator disconnects the system.

AUTOMATIC HEADLIGHTS AND WIPERS

Sensors located near the windshield constantly monitor light and rain and activate headlights and wipers when needed.

THE RENAULT HANDS-FREE CARD

Goodbye to car keys! Your vehicle is now equipped with the Renault Hands-Free Card. When you're carrying the Card, simply place your hand on the door handle to unlock your vehicle. Insert the card in the ignition drive and start your car with the push of a button. The card also stores your personal preferences and will automatically adjust seat position and temperature to your specifications.

Renault eco² eco², Renault's "ecological signature," symbolizes our commitment to preserving the environment through vehicles that are both ecological and economical. eco² vehicles carefully consider the vehicle's impact on the environment throughout its life cycle, from the production line through to recycling and, thanks to the development of particularly low-energy-consuming models, the eco² fleet is among the most economical anywhere.

For a listing of your vehicle's equipment, refer to the vehicle model page.

ACCESSORIES ARE ESSENTIAL

CHILD SAFETY SEATS, NAVIGATION SYSTEMS, CD PLAYERS & MORE

Specially selected accessories to ensure that your Renault Eurodrive vehicle meets your every need in terms of safety and driving convenience.

Ask your local Renault Eurodrive representative for further details on accessories.

TO BOOK **YOUR CAR:**

01 **CHOOSE**

Choose the Renault vehicle that meets your specifications from among the 29 choices of the Eurodrive fleet, then select which accessories you require.

02 **CONTACT**

Complete your reservation with your local Renault Eurodrive representative or go to www.RenaultUSA.com for online reservations. It is advisable to reserve at least two weeks in advance for deliveries in Paris (delivery center). Allow three weeks for Paris airports and five weeks elsewhere in France or greater Europe.

CLIO and CLIO ESTATE

THE LITTLE GIANT

Small outside, big inside, the Clio is a paradox on wheels! In town, it guides smoothly into the smallest parking spaces; while on the road, it offers all the driving pleasure and safety of a big car. Passengers will enjoy the light, elegant interior and all the comforts that make the trip seem a lot shorter...

THE CLIO ESTATE (STATION WAGON)

Adored for its compactness, agility, elegance and sheer cheekiness. A huge trunk, intelligent and modular. With the Clio Estate, you enter a world in which a car's greatness is not simply a question of size.

MEGANE and MEGANE ESTATE

AN INVITATION TO DRIVE

The first thing you'll notice about the Mégane is its striking design: compact yet sleek, stylish yet distinctive. Next, of course, is the Mégane's surprising interior capacity: it really is king in its class. And last but not least, you'll be impressed with its wealth of accessories, the refined elegance of its interior and, of course, the driving pleasure it gives you mile after mile. The Mégane – an invitation to get in and drive.

DEFINITION

RENAULT EURODRIVE is a sales package designed for an international tourist clientele staying in Europe between 21 days and 6 months, benefiting from the tax-free regime currently in force in France.

ELIGIBILITY

Within the context of French legislation, the only groups of people that qualify to use a tax-free vehicle carrying TT plates are:

- Tourists who, regardless of nationality,
 - a) have their usual place of residence outside the European Union,
 - b) are staying in France temporarily, i.e. for not more than 185 days in a period of 12 consecutive months,
 - c) do not engage in any type of paid employment during their stay.

These three conditions must be met simultaneously. The spouse, the co-habitee (with documentary proof of living together), the direct ascendants and descendants of the registration document holder can drive the vehicle as long as they have a right to a tax-free regime, if they satisfy the necessary conditions to benefit from the TT regime.

- Nationals of the European Union residing abroad (outside of the EU) or in French Overseas Departments and Territories, apart from satisfying the conditions outlined above, to supply proof of their return to their legal place of residence at the end of their stay in France or Europe.
- Students, trainees, teachers, journalists or individuals on a clearly defined mission in France who have their principle residence in French Overseas Territories or abroad (outside of the EU) can qualify for the TT regime for a maximum period of one year.

DRIVER'S LICENSE

A driver's license, in force for more than one year, is required in order to qualify for the RENAULT EURODRIVE package. The driver of the vehicle must be at least 18 years old.

VEHICLE PICK-UP

At the time of vehicle delivery, the client must present a currently valid passport (or identity card if the client is French and residing in the Overseas Territories) along with the Eurodrive order form. The vehicle may also be picked up by the spouse, the co-habitee (with documentary proof of living together) or the direct ascendants and descendants if they satisfy the necessary conditions to benefit from the TT regime, along with the relevant proxy form.

CONTRACT EXTENSION

The duration of the RENAULT EURODRIVE contract can be extended, within the period of validity of the relevant registration document (carte grise) simply by calling RENAULT DIRECTION DES VENTES SPECIALES EXPORTATION (DVSE):

From abroad:
+33 1 76 84 99 00.

From France:
01 76 84 99 00.

The price for extending the contract will be calculated on the basis of RENAULT DVSE's general contract extension price list. For further details simply call the numbers listed above.

If the contract is not extended via RENAULT DVSE, the vehicle will no longer be insured and the client will be fully liable on the material, civil and penal levels in the event of damage caused to the vehicle or to third parties, or in case of theft.

VEHICLE RETURN

At the end of the RENAULT EURODRIVE contract, the client must return his/her vehicle to one of RENAULT EURODRIVE's authorized centers, according to the list shown in the brochure.

If the vehicle is returned to an authorized center other than the one indicated initially on the contract, additional costs will be charged to the client if the authorized center in question is located outside of France. In this case, the client's credit card details will be transmitted by the return center to RENAULT DVSE, the latter debiting the client as a consequence or will be charged to the client upon return. If the vehicle is not returned on the date initially scheduled:

- The vehicle will no longer be insured and the client will be fully liable on the material, civil, and penal levels in the event of damage caused to the vehicle or to third parties or in case of theft.
- Any non-paid additional days will be charged to the client.

EARLY RETURN

Contractually, no reimbursement is provided for in the event of an early return.

INSURANCE AND ROADSIDE ASSISTANCE

During the period the RENAULT EURODRIVE contract is in force, the customer is covered by a no-excess, fully comprehensive insurance, underwritten by the company AXA GLOBAL RISKS. There is also a 24-hour roadside assistance provided by RENAULT EURODRIVE ASSISTANCE. This insurance covers the registration card holder and his/her passengers within the limit of the number of seats indicated on the vehicle registration card.

Territories covered as of January 1, 2008:

GERMANY, ANDORRA, AUSTRIA, BELGIUM, BOSNIA HERZEGOVINA, BULGARIA, CYPRUS, CROATIA, DENMARK, SPAIN, ESTONIA, FINLAND, FRANCE, GIBRALTAR, UNITED KINGDOM, GREECE, HUNGARY, IRELAND, ICELAND, ITALY, LATVIA, LIECHTENSTEIN, LITHUANIA, LUXEMBURG, MACEDONIA, MALTA, MONACO, MOROCCO, NORWAY, NETHERLANDS, POLAND, PORTUGAL, CZECH REPUBLIC, ROMANIA, SAN MARINO, SERBIA, MONTENEGRO, SLOVAKIA, SLOVENIA, SWEDEN, SWITZERLAND, TUNISIA, TURKEY, VATICAN CITY.

The client assumes full responsibility for any incidents occurring in a country not listed above. The insurance included in the RENAULT EURODRIVE contract does not cover personal belongings.

CANCELLATION

In the event of contract cancellation, charges will be incurred. Please request relevant details at the time of booking.

RESPONSIBILITY

The general conditions of sale appear in full on the reverse side of the RENAULT EURODRIVE order form. Information contained in this brochure is given by way of example only and may be subject to change without prior notice. Non contractual photographs and illustrations. For further information, please contact your local RENAULT EURODRIVE representative or travel agent.
